Major Primary Timber Processing Facilities in British Columbia

2002

Economics and Trade Branch
Ministry of Forests
Victoria, B.C.

June 2003

Foreword

This is the 2002 edition of the Ministry of Forests' *Major Primary Timber Processing Facilities in British Columbia* and refers to timber processing mills that have primary log processing capability and which operated during 2002. Coverage does not include re-manufacturing plants. Pulp and paper mills and panel plants are included in this report even though some do not have primary log processing capabilities.

Reported information was gathered by surveying the individual processing mills. If a response was not submitted by the mills, mill specific information reported in trade publications, directories and corporate annual reports may have been used. In some cases Ministry of Forest staff provided estimates based on their knowledge of the operation and information reported in previous years.

Where a mill produces more than one product (e.g. lumber and plywood; lumber and paper), each operation is listed in the respective sections of the report.

Effective April 1, 2003, the Ministry of Forests has a new organizational structure, consisting of headquarters in Victoria, three regions and 29 districts. This report uses the previous organizational structure that was in place in 2002, consisting of six regions and 40 districts. Maps of both the old and new regions and districts are provided.

This report is available free of charge on the Ministry of Forests' Internet site at:

http://www.for.gov.bc.ca/het/

Request for hard copies of this report can be made to:

Revised January, 2003

CHIP MILLS

(Listed Alphabetically)

Only mills that produce wood chips as a primary product are listed in this section.

Notes:

1. Measurement units are in thousands of bone dry units (000 BDUs).
2. Estimated annual capacity is based on a standardized operation of 240 days per year, two 8 hour shifts per day. Actual mill operations may vary from this schedule.

CHIP MILLS - 2002

Mill Number	Company	Location of Mill	Forest Region	Forest District	Estimated Annual Capacity (000s of BDUs)

LOG HOME MILLS

(Listed Alphabetically)

Mills that process logs to manufacture log homes are listed in this section.

A throughput capacity measurement is not as meaningful for log home mills as it is for other types of primary timber processing mills. Therefore this section does not include information pertaining to estimated annual capacity.

Mill Number	Company	Location of Mill	Forest Region	Forest District
37	Arcadia Log Homes	Surrey	Vancouver	Chilliwack

LUMBER MILLS

(Listed Alphabetically)

Mills producing lumber are reported in the following 2 sections:

a) Mills that have estimated annual capacity of more than 10 million board feet (million bf) of lumber.

b) Mills that have estimated annual capacity of less than 10 million board feet (million bf) of lumber.

Notes:

1. Measurement units are in millions of board feet (million bf).

2. Estimated annual capacity is based on a standardized operation of 240 days per year, two 8 hour shifts per day. Actual mill operations may vary from this schedule.

THE FOLLOWING MILLS HAD CAPACITY OF MORE THAN 10 MILLION BOARD FEET OFLUMBER IN 2002

Mill Number	Company	Location of Mill	Forest Region	Forest District	Estimated Annual Capacity (millions of board feet)

POLE AND POST MILLS

(Listed Alphabetically)

Mills producing poles and posts are listed in this section.

Notes:

1. Measurement units are in thousands of pieces (000 pcs).

2. Estimated annual capacity is based on a standardized operation of 240 days per year, two 8 hour shifts per day, although actual mill operations may vary from this schedule.

PULP AND PAPER MILLS

(Listed Alphabetically)

Mills producing pulp and paper are listed in this section. For integrated mills, pulp capacity includes pulp that is used internally to produce paper, and pulp that is shipped from the mill site as market pulp.

Notes:

1. Measurement units are in thousands of metric tonnes (000 mt).

2. Estimated annual capacity is based on a standardized operation of 345 operating days per year, 24–hours per day. Actual operations may vary from this schedule.

SHAKE AND SHINGLE MILLS

(Listed Alphabetically)

Mills that produce shake and shingles are listed in this section.

Notes:

1. Measurement units are in thousands of roofing squares (000 sq). A roofing square is approximately 100 square feet.

2. Estimated annual capacity is based on a standardized operation of 240 days per year, two 8 hour shifts per day. Actual mill operations may vary from this schedule.

VENEER, PLYWOOD, AND OTHER PANEL MILLS

(Listed Alphabetically)

Mills producing veneer, plywood and other types of panel are listed in this section. For mills that produce both market veneer and plywood, veneer capacity includes market veneer and the veneer that is used within the mill to manufacture plywood. Panel mills that use wood residuals to produce panels or that do not have log-processing capability are also listed in this report.

Notes:

1. Measurement units are in millions of square feet, 3/8" basis (mill. sq. ft., 3/8").

2. Estimated annual capacity for veneer mills is based on a standardized operation of 240 days per year, two 8 hour shifts per day. For plywood and other panel mills, estimated annual capacity is based on a standardized operation of 240 days per year, three 8 hour shifts per day. Actual operations may vary from these schedules.
